(c). Sri Rama's temple has its *Puduvat* (private endowments). The Government should see that the money is properly spent at annual car festivals and in monthly and fortnightly festivals and in daily worship.

Levy of Local Fund Cess on Gutta instead of on Beriz in the case of Kayamgutta Villages.

Sri Chamarajendra English School to be taken over by Government.

Summary of discussion.—Correspondence has been going on for the last three years about the Sri Chamarajendra English School started by local contributions being taken over under Government management. Subject No. 454.

Branch channels to be maintained by D. P. W.

Summary of discussion.—At present the D. P. W. attend to and maintain only the main river channels. They do not attend to branch channels drawn from them and running several miles and irrigating several hundred acres. These left to raiyats are neglected and in very bad condition. These should also be looked after by the D. P. W.

Dewan's reply.—This seems reasonable. It will be considered.

Subject No. 455.

A Munsiff's Court at Yedatore.

Summary of discussion.—The Yedatoré Taluk is under the jurisdiction of the 2nd Class Magistrate at Holé-Narsipur. As the latter is far off, a Munsiff's Court should be established at Yedatoré with jurisdiction over Hunsur, Krishnarajpété, and parts of the Mysore Taluk. A Court at Hunsur will not suit Yedatoré people.

Dewan's reply.—(See No. 447 *supra*). Noted.

Subject No. 456.

Improvement of Yedatore Town.

Summary of discussion.—The river water which the people now drink at Yedatoré is considered unwholesome and the Sanitary Engineer Mr. Lee has proposed to convey water from the Ramasamudram Channel by means of pipes. This would entail much expense with doubtful benefit. The money can be advantageously spent in improving the sanitation of the town itself and in lending at Savings Bank rate of interest for

building houses to those who are in need of houses. This would save money to the Government and benefit the people.

Dewan's reply.—Noted.

Subject No. 457.

A 2nd Class Magistrate for the Yedatore Taluk.

Summary of discussion.—As Mysore is far away, a 2nd Class Magistrate should be sent to the Yedatoré Taluk so that he may settle disputes regarding boundary marks, water-supply, &c., which are frequent in this Taluk which has extensive wet lands, or the Amildar of the Taluk should be invested with the powers of a 2nd Class Magistrate.

Repairs to the road from Yedatore to Kappadi.

Summary of discussion.—Kappadi is a place of pilgrimage at a distance of four miles from Yedatoré. The annual festival in the month of February attracts about fifty thousand persons and ten thousand carts. The offerings amount to Rs. 5,000 which go to Mr. K. Rajé Ars of Mysore. As the road from Yedatoré to Kappadi is in a bad condition and as there is no bridge across the canal near Chendgal, either the Government should repair the road and construct a bridge or get Mr. Rajé Ars to do this.

Dewan's reply.—This is a matter for the Local Fund Board. We cannot compel Mr. K. Rajé Ars.

Dewan's reply.—No funds. Devotees should subscribe.

Subject No. 461.

Antarsante Kaval to be granted for constructing houses.

Summary of discussion.—If Antarsanté Kaval be let out for cultivation, both the Government and the raiyats will be benefited. Moreover great damage is caused by the annual inundations of the river Kapila to the villages of Maggé, Malali and Sundapur which are situated on the bank of the river. To free the villagers from this and other trouble, a representation was made in November 1892 to His Highness the Maharaja and the Dewan at Kakankoté Camp requesting that the Kaval land may be granted for constructing houses and that the new village may be named Krishnarajpur in honor of the 1st Prince. Sanction was promised and should now be granted. The new plantations in the Antarsanté Kaval begun by the Forest Department should be stopped at once. It was only after the Forest Department was directed not to form teak plantations near villages that the general health of the inhabitants began to improve. But it appears that en-
